BASIS OF PREPARATION AND FORWARD-LOOKING STATEMENTS

The following is the quarterly financial report and Management's Discussion and Analysis ("MD&A") of the results of operations and financial position of Stingray Group Inc., ("Stingray" or "the Corporation"), and should be read in conjunction with the Corporation's unaudited interim consolidated financial statements and accompanying notes for the three-month periods ended June 30, 2019 and 2018, and with the most recent audited consolidated financial statements and MD&A for the year ended March 31, 2019. This MD&A reflects information available to the Corporation as at August 6, 2019. Additional information relating to the Corporation is also available on SEDAR at www.sedar.com. The auditors of the Corporation have not performed a review of the interim financial report for the three-month period ended June 30, 2019.

This MD&A contains forward-looking information within the meaning of applicable Canadian securities laws. This forward-looking information includes, but is not limited to, statements with respect to management's expectations regarding the future growth, results of operations, performance and business prospects of the Corporation. This forward-looking information relates to, among other things, our objectives and the strategies to achieve these objectives, as well as information with respect to our beliefs, plans, expectations, anticipations, estimations and intentions, and may also include other statements that are predictive in nature, or that depend upon or refer to future events or conditions. Statements with the words "could", "expect", "may", "will", "anticipate", "assume", "intend", "plan", "believes", "estimates", "guidance", "foresee", "continue" and similar expressions are intended to identify statements containing forward-looking information, although not all forward-looking statements included such words. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances contain forward-looking information. Statements containing forward-looking information are not historical facts but instead represent management's expectations, estimates and projections regarding future events.

Although management believes the expectations reflected in such forward-looking statements are reasonable, forward-looking statements are based on the opinions, assumptions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include but are not limited to the risk factors disclosed in the Annual Information Form for the year ended March 31, 2019 available on SEDAR.

In addition, if any of the assumptions or estimates made by management prove to be incorrect, actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this MD&A. Such assumptions include, but are not limited to, the following: our ability to generate sufficient revenue while controlling our costs and expenses; our ability to manage our growth effectively; the absence of material adverse changes in our industry or the global economy; trends in our industry and markets; the absence of any changes in law, administrative policy or regulatory requirements applicable to our business, including any change to our licences with the Canadian Radio-television and Telecommunications Commission ("CRTC"); minimal changes to the distribution of the pay audio services by Pay-TV providers in light of recent CRTC policy decisions; our ability to manage risks related to international expansion; our ability to maintain good business relationships with our clients, agents and partners; our ability to expand our sales and distribution infrastructure and our marketing; our ability to develop products and technologies that keep pace with the continuing changes in technology, evolving industry standards, new product introductions by competitors and changing client preferences and requirements; our ability to protect our technology and intellectual property rights; our ability to manage and integrate acquisitions; our ability to retain key personnel; and our ability to raise sufficient debt or equity financing to support our business growth. Accordingly, prospective purchasers are cautioned not to place undue reliance on such statements. All of the forward-looking information in this MD&A is qualified by these cautionary statements. Statements containing forward-looking information contained herein are made only as of the date of this MD&A. The Corporation expressly disclaims any obligation to update or alter statements containing any forward-looking information, or the factors or assumption underlying them, whether as a result of new information, future events or otherwise, except as required by law.

SUPPLEMENTAL INFORMATION ON NON-IFRS MEASURES

The Corporation believes that Adjusted EBITDA and Adjusted EBITDA margin are important measures when analyzing its operating profitability without being influenced by financing decisions, non-cash items and income taxes strategies. Comparison with peers is also easier as companies rarely have the same capital and financing structure. The Corporation believes that Adjusted Net income and Adjusted Net income per share are important measures as it demonstrates its core bottom-line profitability. The Corporation believes that Adjusted free cash flow is an important measure when assessing the amount of cash generated after accounting for capital expenditures and non-core charges. It demonstrates cash available to make business acquisitions, pay dividend and reduce debt. The Corporation believes that Net debt, Net debt to Adjusted EBITDA and Pro Forma Adjusted EBITDA are important measures when analyzing the significance of debt on the Corporation's statement of financial position. Each of these non-IFRS financial measures is not an earnings or cash flow measure recognized by International Financial Reporting Standards (IFRS) and does not have a standardized meaning prescribed by IFRS. Our method of calculating such financial measures may differ from the methods used by other issuers and, accordingly, our definition of these non-IFRS financial measures may not be comparable to similar measures presented by other issuers. Investors are cautioned that non-IFRS financial measures should not be construed as an alternative to net income determined in accordance with IFRS as indicators of our performance or to cash flows from operating activities as measures of liquidity and cash flows.

OVERVIEW

Stingray is the world-leading provider of multiplatform music and video services as well as digital experiences for pay TV operators, commercial establishments, OTT providers, mobile operators, consumers, and more. Its services include audio television channels, more than 100 radio stations, premium television channels, 4K UHD television channels, karaoke products, digital signage, in-store music, and music apps. Stingray reaches 400 million subscribers (or users) in 156 countries and its mobile apps have been downloaded over 140 million times.

The Corporation is headquartered in Montreal and currently has over 1,200 employees worldwide, including in the United States, the United Kingdom, the Netherlands, Israel, and Australia.

KEY PERFORMANCE INDICATORS⁽¹⁾

For the three-month period ended June 30, 2019 ("Q1 2020"):

\$80.4 M ▲ 133.4% from Q1 2019 Revenues	\$34.0 M ▲ 10.3% from Q1 2019 Recurring Broadcasting and Commercial Music revenues ⁽²⁾	\$31.2 M ▲ 178.8% from Q1 2019 38.7% margin Adjusted EBITDA	\$20.6 M ▲ 229.1% from Q1 2019 Adjusted free cash flow
\$0.07 ▲ 16.7% from Q1 2019 Quarterly dividend per share	65.1% % of international ⁽³⁾ Broadcasting and Commercial Music revenues	\$9.2 M Or \$0.12 per share ▲ 582.2% from Q1 2019 Net income	\$26.3 M ▲ 264.6% from Q1 2019 Cash flow from operating activities

FINANCIAL AND BUSINESS HIGHLIGHTS

Highlights of the first quarter ended June 30, 2019:

Compared to the quarter ended June 30, 2018 ("Q1 2019"):

- Revenues increased 133.4% to \$80.4 million from \$34.5 million;
- Recurring Broadcasting and Commercial Music revenues⁽²⁾ increased 10.3% to \$34.0 million from \$30.8 million;
- Adjusted EBITDA⁽¹⁾ increased 178.8% to \$31.2 million from \$11.2 million. Excluding the impact of IFRS 16, Adjusted EBITDA⁽¹⁾ would have been \$29.7 million. IFRS 16 - Leases accounting standard was adopted on April 1, 2019 resulting in a reduction of \$1.5 million in operating lease expenses for the quarter. Please refer to IFRS 16 - Leases in the section New standard adopted by the Corporation on page 17;
- Adjusted EBITDA⁽¹⁾ by segment was \$14.6 million or 39.1% of revenues for Broadcasting and Commercial Music, \$17.8 million or 41.4% of revenues for Radio and \$(1.2) million for Corporate;
- Adjusted EBITDA⁽¹⁾ margin was 38.7% compared with 32.4%, due in part to efficiencies in operations as a result of scale;
- Net income was \$9.2 million (\$0.12 per share) compared with \$1.3 million (\$0.02 per share);
- Adjusted Net income⁽¹⁾ of \$15.8 million (\$0.21 per share) compared with \$5.9 million (\$0.10 per share);
- Cash flow from operating activities increased 264.6% to \$26.3 million compared to \$7.2 million;
- Adjusted free cash flow⁽¹⁾ increased 229.1% to \$20.6 million, or \$0.27 per share, compared to \$6.3 million; and
- Net debt to Pro Forma Adjusted EBITDA⁽¹⁾ ratio of 2.89x.

Notes:

- (1) Refer to "Supplemental information on Non-IFRS measures" on page 2 and 6. The adoption of IFRS 16 had a material impact on the Corporation's Consolidated Statements of Financial Position and its Consolidated Statements of Comprehensive Income as nearly all leases were capitalized with a corresponding liability, while the rent expense was replaced by the depreciation of the right-of-use assets, and interest accretion expense from the liabilities was recorded.
- (2) Recurring Broadcasting and Commercial Music revenues include subscriptions and usage in addition to fixed fees charged to our customers on a monthly, quarterly and annual basis for continuous music services. Non-recurring revenues mainly include advertising, support, installation, equipment and one-time fees.
- (3) International means all jurisdictions except Canada.

Business Highlights:

- On August 6, 2019, the Corporation declared a dividend of \$0.07 per subordinate voting share, variable subordinate voting share and multiple voting share. The dividend will be payable on or around September 13, 2019 to shareholders on record as of August 31, 2019.
- On August 6, 2019, the Corporation's Board of Directors has approved the implementation of a normal course issuer bid ("NCIB") authorizing the Corporation to repurchase up to an aggregate of 2,924,220 subordinate voting shares and variable subordinate voting shares of Stingray (collectively, "Subordinate Shares"), representing 5% of the 58,484,449 issued and outstanding Subordinate Shares as at July 31, 2019. The NCIB remains subject to the approval of the Toronto Stock Exchange.
- On August 5, 2019, the Corporation announced that it has reached a long term agreement with Rogers Communications that renews their longstanding relationship.
- On July 9, 2019, the Corporation extended the maturity of its revolving facility by one year, with a new maturity date of October 25, 2022. The Corporation reduced the authorized amount under the revolving facility by \$70.0 million bringing it down to \$230.0 million. The term facility remains unchanged with \$150.0 million of availability. The interest pricing grid was also reviewed for both the revolving facility and the term facility, which will reduce future interest expense.
- On May 9, 2019, the Corporation announced that its wholly-owned subsidiary, Stingray Radio Inc., had entered into an agreement to acquire the assets of CIXL-FM and CKYY-FM in Welland, Ontario, from Wellport Broadcasting Limited/RB Communications Ltd, subject to approval from the CRTC.
- On May 7, 2019, the Corporation announced the second launch of Stingray Products with Bell in less than a year. Bell Fibe TV subscribers can now access two on-demand services created especially for music fans: Stingray Qello and Stingray Karaoke. For a monthly fee, subscribers can watch sold-out performances by music's biggest headliners or grab the mic to sing their hearts out to massive, crowd-pleasing hits.

Notes:

- (1) Recurring Broadcasting and Commercial Music revenues include subscriptions and usage in addition to fixed fees charged to our customers on a monthly, quarterly and annual basis for continuous music services. Non-recurring revenues mainly include advertising, support, installation, equipment and one-time fees.
- (2) Interest paid during the Q1 2020 was \$5.0 million (Q1 2019; \$0.4 million and Q4 2019; \$4.4 million)
- (3) Refer to "Forward-looking statements" and "Supplemental information on Non-IFRS measures" on page 2 and for reconciliations to the most directly comparable IFRS financial measure, refer to "Supplemental information on Non-IFRS measures" on page 6.
- (4) As at June 30, 2018, net debt to Adjusted EBITDA consists of Net debt divided by Adjusted EBITDA trailing twelve months (TTM).
- (5) As at June 30, 2019 and March 31, 2019, Pro Forma Adjusted EBITDA is calculated as the Corporation's last twelve months Adjusted EBITDA (Q1 2020; \$92.2 million, Q4 2019; \$72.2 million), plus pro rated Adjusted EBITDA for the acquisitions made in Fiscal 2019 for the months prior to the acquisitions which are not already reflected in the results (Q1 2020; \$27.8 million including synergies of \$5.9 million, Q4 2019; \$42.0 million including synergies of \$5.8 million). The impact of IFRS 16 on Adjusted EBITDA for Q2 2019, Q3 2019 and Q4 2019 is not reflected in the Pro Forma Adjusted EBITDA. Refer to "Forward-looking statements" and "Supplemental information on Non-IFRS measures" on page 2 and for reconciliations of Adjusted EBITDA to the most directly comparable IFRS financial measure, refer to "Supplemental information on Non-IFRS measures" on page 6.

SUPPLEMENTAL INFORMATION ON NON-IFRS MEASURES

Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net income, Adjusted Net income per share, Adjusted free cash flow, Net debt and Net debt to Adjusted EBITDA and to Pro Forma Adjusted EBITDA are non-IFRS measures that the Corporation uses to assess its operating performance. See “Supplemental information on Non-IFRS Measures” on page 2.

The following tables show the reconciliation of Net income to Adjusted EBITDA and to Adjusted Net income:

(in thousands of Canadian dollars)	3 months

Net debt	347,107	357,821	43,557

FINANCIAL RESULTS FOR THE PERIODS ENDED JUNE 30, 2019 AND 2018

CONSOLIDATED PERFORMANCE

Revenues

Revenues are detailed as follows:

(in thousands of Canadian dollars)	3 months		
	Q1 2020	Q1 2019	% Change
Revenues by geography			
Canada	56,107	13,641	311.3
United States	9,141	8,185	11.7
Other Countries	15,189	12,630	20.3
Revenues	80,437	34,456	133.4

Global

Revenues in Q1 2020 increased \$45.9 million or 133.4% to \$80.4 million, from \$34.5 million for Q1 2019. The increase was primarily due to the acquisition of Newfoundland Capital Corporation Inc. ("NCC"), combined with the acquisition of DJ Matic and Novrmedia and organic growth in subscription video-on-demand services ("SVOD"), partially offset by a five to six months delay to implement an advertising sales model included in the renewal of a contract in Fiscal 2019 and by a decrease in equipment and installation sales related to digital signage. The increase was also offset by the termination of some low margin international contracts.

Canada

Revenues in Canada in Q1 2020 increased \$42.4 million or 311.3% to \$56.1 million, from \$13.7 million for Q1 2019. The increase in revenues was primarily due to the acquisitions of NCC and Novrmedia, partially offset by a five to six months delay to implement an advertising sales model included in the renewal of a contract in Fiscal 2019 and by a decrease in equipment and installation sales related to digital signage.

United States

Revenues in United States in Q1 2020 increased \$0.9 million or 11.7% to \$9.1 million, from \$8.2 million for Q1 2019. The increase was primarily due to organic growth in SVOD.

Other Countries

Revenues in Other countries in Q1 2020 increased \$2.6 million or 20.3% to \$15.2 million, from \$12.6 million for Q1 2019. The increase was primarily due to the acquisition of DJ Matic and to organic growth in SVOD, partially offset by the termination of some low margin contracts.

Operating Expenses

Operating expenses in Q1 2020 increased \$26.5 million or 111.2% to \$50.3 million, from \$23.8 million for Q1 2019. The increase was primarily due to the acquisitions of NCC and DJ Matic, partially offset by the reduction of \$1.5 million in operating lease expenses from the adoption of IFRS 16.

Adjusted EBITDA⁽¹⁾

Adjusted EBITDA in Q1 2020 increased \$20.0 million or 178.8% to \$31.2 million from \$11.2 million for Q1 2019. Adjusted EBITDA margin was 38.7% compared to 32.4% for Q1 2019. The increase in Adjusted EBITDA was primarily due to the acquisition of NCC and other acquisitions realized in Fiscal 2019, to organic growth in SVOD and to the impact of the adoption of IFRS 16. The increase in Adjusted EBITDA margin was mainly related to the new Radio segment, which has a higher Adjusted EBITDA margin in the first quarter due to normal business seasonality, and to reduced operating expenses in the Broadcasting and Commercial Music segment. Excluding the impact of IFRS 16, the Adjusted EBITDA would have been \$29.7 million and the Adjusted EBITDA margin 36.8%.

Depreciation, amortization and write off

Depreciation, amortization and write off in Q1 2020 increased \$4.5 million or 79.2% to \$10.3 million, from \$5.8 million for Q1 2019. The increase was primarily due to the acquisition of NCC and to the adoption of IFRS 16, which resulted in a depreciation charge for the right-of-use assets of \$1.4 million in Q1 2020 compared to nil in Q1 2019.

Net Finance Expense (Income)

In Q1 2020, net finance expense increased to \$7.4 million from \$1.9 million for Q1 2019. The increase was mainly related to higher interest expense due to the additional debt related to the funding of the acquisition of NCC and to the mark-to-market losses on derivative instruments, partially offset by a lower negative change in fair value of contingent considerations. The incremental interest accretion on lease liabilities from the adoption of IFRS 16 also contributed to the increase of net finance expense in the amount of \$0.4 million.

Change in fair value of investments

In Q1 2020, a loss on fair value of \$0.3 million was recorded compared to a gain of \$0.5 million for Q1 2019. The variance is related to the translation of an investment denominated in U.S. dollars to Canadian dollars.

Acquisition, legal, restructuring and other expenses

(in thousands of Canadian dollars)	3 months		
	Q1 2020	Q1 2019	% Change
Revenues by geography			
Acquisition	61	576	(89.4)
Legal	1,354	1,029	31.6
Restructuring and other	32	17	88.2
Acquisition, legal, restructuring and other expenses	1,447	1,622	(10.8)

Note:

(1) Refer to "Supplemental information on Non-IFRS measures" on page 2 and 6.

Income Taxes

The income taxes expense recognized in the comprehensive income was \$1.5 million for Q1 2020 compared to \$0.5 million for Q1 2019. The effective tax rate for Q1 2020 was 13.9% compared to 26.6% for Q1 2019. The decrease in the effective tax rate is mainly due to the relative importance of permanent difference compared to net income before income taxes.

Net income and net income per share

Net income in Q1 2020 was \$9.2 million (\$0.12 per share) compared to \$1.3 million (\$0.02 per share) for Q1 2019. The increase was mainly attributable to higher operating results and to the lower negative change in fair value of contingent considerations, partially offset by higher interest, depreciation and amortization, mark-to-market losses on derivative financial instruments and income taxes.

Adjusted Net income⁽¹⁾ and Adjusted Net income per share⁽¹⁾

Adjusted Net income in Q1 2020 was \$15.8 million (\$0.21 per share), compared to \$5.9 million (\$0.10 per share) for Q1 2019. The increase is related to higher operating results and to the lower negative change in fair value of contingent considerations, partially offset by higher interest, depreciation, income taxes and mark-to-market losses on derivative financial instruments.

Note:

(1) Refer to "Supplemental information on Non-IFRS measures" on page 2 and 6.

BUSINESS SEGMENT PERFORMANCE

BROADCASTING AND COMMERCIAL MUSIC

(in thousands of Canadian dollars)	3 months		
	Q1 2020	Q1 2019	% Change
Revenues	37,347	34,456	8.4
Operating expenses	22,739	22,048	3.1
Adjusted EBITDA⁽¹⁾	14,608	12,408	17.7
Adjusted EBITDA margin⁽¹⁾	39.1%	36.0%	8.6

Revenues

In Q1 2020, Broadcasting and Commercial Music revenues increased \$2.8 million or 8.4% to \$37.3 million from \$34.5 million for Q1 2019. The increase was primarily due to the acquisition of DJ Matic and Novrmedia and to organic growth in SVOD, partially offset by a five to six months delay to implement an advertising sales model included in the renewal of a contract in Fiscal 2019 and by a decrease in equipment and installation sales related to digital signage. The increase was also offset by the termination of some low margin international contracts.

Adjusted EBITDA⁽¹⁾

In Q1 2020, Broadcasting and Commercial Music Adjusted EBITDA increased by \$2.1 million or 17.7% to \$14.6 million from \$12.5 million for Q1 2019. The increase in Adjusted EBITDA was primarily due to organic growth in SVOD, to the acquisitions of DJ Matic and Novrmedia, to reduced operating expenses and to the impact of the adoption of IFRS 16, partially offset by a five to six months delay to implement an advertising sales model included in the renewal of a contract in Fiscal 2019 and by a decrease in equipment and installation sales related to digital signage.

Adjusted EBITDA⁽¹⁾

Corporate Adjusted EBITDA represented the head office operating expenses less the share-based compensation and performance and deferred share unit expense.

Note:

(1) Refer to "Supplemental information on Non-IFRS measures" on page 2 and 6.

Quarterly results

Revenues increased over the last eight quarters from \$31.2 million in the second quarter of Fiscal 2018 to \$80.4 million in the first quarter of Fiscal 2020. The increase was mainly attributable to the successful integration of acquisitions and organic growth including new contracts in all geographic locations. The decrease in Q4 2018 revenues compared to Q3 2018 was mainly explained by lower non-recurring revenues related to digital signage. The increases in Q3 2019 and Q4 2019 were mainly explained by the acquisition of NCC on October 26, 2018. In Q3 2019, revenues in the Corporate segment derived from hotel operations, which was acquired through the NCC acquisition, but disposed of in the same quarter.

Adjusted EBITDA⁽¹⁾ increased over the last eight quarters from \$9.5 million in the second quarter of Fiscal 2018 to \$31.2 million in the first quarter of Fiscal 2020. The increase was mainly attributable to the successful integration of acquisitions and organic growth including new contracts. The increase in Q3 2019 was primarily due to the acquisition of NCC and other acquisitions realized in Fiscal 2019 and 2018, and to the organic growth of B2C apps and SVOD. The decrease in Q4 2019 was mainly due to normal business seasonality in the Radio segment and to the reversal of certain accrued liabilities, which positively contributed to the Adjusted EBITDA⁽¹⁾ of the Radio segment in Q3 2019. The increase in Q1 2020 was mainly due to normal business seasonality in the Radio segment.

Net income (loss) fluctuated over the last eight quarters from a net loss of \$3.4 million in the second quarter of Fiscal 2018 to a net income of \$9.2 million in the first quarter of Fiscal 2020. In Q2 2018, the net loss was mainly related to higher legal fees and finance expenses, offset partially by an income tax recovery. In Q3 2018, the net income was mainly attributable to higher operating results and lower legal fees, partially offset by the negative change in fair value of contingent consideration and higher amortization expense of intangible assets compared to Q2 2018. In Q4 2018, the increase in net income was mainly attributable to higher net finance income and income tax recovery. In Q3 2019, the decrease was mainly attributable to the CRTC Tangible benefits expense related to the NCC acquisition, higher interest and acquisition expenses, partially offset by higher operating results. In Q4 2019, the increase was mainly explained by the absence of CRTC Tangible benefits expense, lower acquisition expenses and write-off of balance payable on acquisition, partially offset by higher income taxes and lower operating results. In Q1 2020, the increase was mainly explained by higher operating results, lower acquisition expenses and lower mark-to-market losses on derivative financial instruments, partially offset by the absence of write-off of balance payable on acquisition and positive change in fair value of contingent considerations.

LIQUIDITY AND CAPITAL RESOURCES FOR THE PERIODS ENDED JUNE 30, 2019 AND 2018

(in thousands of Canadian dollars)	3 months	
	Q1 2020	Q1 2019
Operating activities (restated - see page 19)	26,298	7,212
Financing activities (restated - see page 19)	(20,700)	1,530
Investing activities	(3,655)	(7,780)
Net change in cash	1,943	962
Cash – beginning of period	4,673	3,362
Cash – end of period	6,616	4,324
Adjusted free cash flow⁽¹⁾	20,587	6,255

Operating activities

Cash flow generated from operating activities amounted to \$26.3 million for Q1 2020 compared to \$7.2 million for Q1 2019. The increase was mainly due to the acquisition of NCC, to higher operating results and the impact of the adoption of IFRS 16. During the period, the Corporation changed its accounting policy with respect to the disclosure of interest paid in the Consolidated Statements of Cash Flows. The Corporation now disclose interest paid in financing activities. Prior to this change of policy, the Corporation disclosed interest paid in operating activities. Refer to page 19 for more information.

Financing Activities

Net cash flow used in financing activities amounted to \$20.7 million for Q1 2020 compared to net cash flow generated by financing activities of \$1.5 million for Q1 2019. The net change was mainly attributable to repayments of the revolving credit facility, higher interest paid and higher dividend payment, partially offset by lower repayments of other payable.

Investing Activities

Net cash flow used in investing activities amounted to \$3.7 million for Q1 2020 compared to \$7.8 million for Q1 2019. The net change was primarily due to lower asset acquisitions compared to Q1 2019.

Adjusted free cash flow⁽¹⁾

Adjusted free cash flow generated in Q1 2020 amounted to \$20.6 million compared to \$6.3 million for Q1 2019. The increase was mainly related to the acquisition of NCC and to higher operating results, partially offset by higher interest paid.

Note:

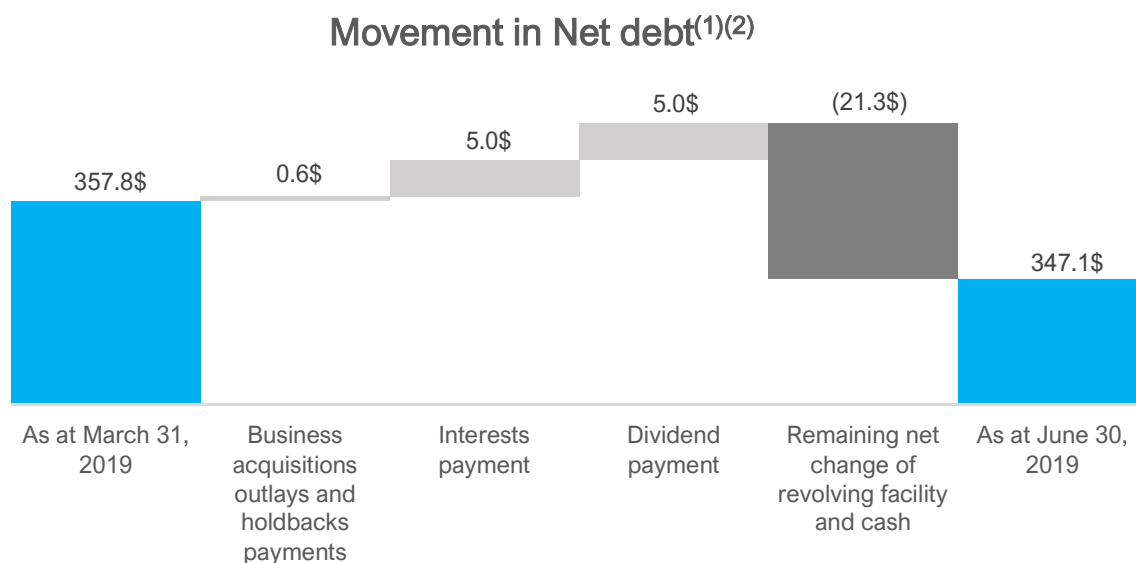

(1) Refer to "Supplemental information on Non-IFRS measures" on page 2 and 6.

CONSOLIDATED FINANCIAL POSITION

The following table shows the main variances that have occurred in the consolidated financial position of the Corporation for the three-month period ended June 30, 2019:

(in thousands of Canadian dollars)	June 30, 2019	March 31, 2019	Variance	Significant contributions
Trade and other receivables	74,554	68,844	5,710 ▲	Increase in sales
Right-of-use assets on leases	32,939	-	32,939 ▲	Recognition of right-of-use assets on leases following the adoption of IFRS16
Intangible assets	59,791	64,395	(4,604) ▼	Amortization of intangible assets
Goodwill	330,010	331,332	(1,322) ▼	Foreign exchange differences
Accounts payables and accrued liabilities	66,957	61,956	5,001 ▲	Timing of payments to suppliers
Lease liabilities	33,852	-	33,852 ▲	Recognition of lease liabilities following the adoption of IFRS16
Credit facility	304,159	312,955	(8,796) ▼	Refer to the graph below

The following graph summarizes the impact on the Net debt that occurred in the three-month period ended June 30, 2019 including related ratios:

\$114.2	Pro Forma Adjusted EBITDA ⁽¹⁾⁽²⁾⁽³⁾	\$120.0
3.13	Net debt to Pro Forma Adjusted EBITDA ⁽¹⁾⁽²⁾	2.89

Notes:

(1) In millions of Canadian dollars.

(2) Refer to "Supplemental information on Non-IFRS measures" on pages 2 and 6.

(3) As at June 30, 2019 and March 31, 2019, Pro Forma Adjusted EBITDA is calculated as the Corporation's last twelve months Adjusted EBITDA (Q1 2020; \$92.2 million, Q4 2019; \$72.2 million), plus pro rated Adjusted EBITDA for the acquisitions made in Fiscal 2019 for the months prior to the acquisitions which are not already reflected in the results (Q1 2020; \$27.8 million including synergies of \$5.9 million, Q4 2019; \$42.0 million including synergies of \$5.8 million). The impact of IFRS 16 on Adjusted EBITDA for Q2 2019, Q3 2019 and Q4 2019 is not reflected in the Pro Forma Adjusted EBITDA. Refer to "Forward-looking statements" and "Supplemental information on Non-IFRS measures" on page 2 and for reconciliations of Adjusted EBITDA to the most directly comparable IFRS financial measure, refer to "Supplemental information on Non-IFRS measures" on page 6.

Music Choice Litigation

Music Choice v. Stingray

Music Choice filed its original Complaint against the Corporation on June 6, 2016, asserting infringement of four U.S. patents, namely, U.S. Patent Nos. 8,769,602 (the '602 Patent), 9,357,245 (the '245 Patent), 7,320,025 (the '025 Patent) and 9,351,045 (the '045 Patent). On August 12, 2016, Music Choice filed its First Amended Complaint, which added a fifth U.S. patent, namely, U.S. Patent No. 9,414,121 (the '121 Patent). The Corporation filed its Answer to the Original Complaint (including counterclaims) on August 30, 2016, asserting, among other things, defenses and counterclaims of non-infringement and invalidity. On September 2, 2016, Music Choice filed its Second Amended complaint, adding Stingray Music USA, Inc. (SMU) as a defendant, and the Corporation and SMU filed their answers and counterclaims on September 23 and October 4, 2016, respectively. Since the commencement of the case, the parties have jointly prepared and filed with the Court a docket control order, a protective order and an ESI order. Music Choice also served its infringement contentions on September 12, 2016, the parties exchanged Initial Disclosures, and the Corporation served its invalidity contentions on November 28, 2016. On March 27, 2017, the Corporation filed a motion for judgment on the pleadings on the basis that the Asserted Patents are invalid under 35 U.S.C. 101 for claiming unpatentable subject matter. The parties exchanged amended infringement and invalidity contentions on April 28, 2017. In addition, on November 14, 2016, the Corporation filed an amended answer and counterclaims which included inequitable conduct counterclaims based on David Del Beccaro's (and the other inventors') failure to disclose a product offered by Music Choice Europe in or about 2001 to the patent office and their misrepresentations to the patent office that they are the true inventors of the patents-in-suit. Music Choice moved to dismiss and strike the Corporation's inequitable conduct counterclaims, which the Corporation opposed on January 4, 2017. On May 3, 2017, the magistrate judge handling the case issued a Report and Recommendation that the motion be dismissed, and on September 6, 2017, the Court adopted the report and denied Music Choice's motion. On July 6, 2017, the Court issued a Markman Order construing certain claim terms of the Asserted Patents. On September 14, 2017, Music Choice dropped one of the five patents-in-suit (the '602 Patent). On October 17, 2017, the Corporation filed a motion to adjourn the trial date and remaining case deadlines, in part because the Patent Trial and Appeal Board (PTAB) instituted inter partes review for three of the four patents-in-suit (i.e., the '025, '045 and '245 Patents). On October 23, 2017, the Corporation filed a petition for inter partes review for claims 10 and 15 of the '245 Patent. On October 24, 2017, Music Choice requested adverse judgment against itself from the PTAB with respect to 1-9, 12-14, and 16-17 of the '245 Patent. On October 27, 2017, the PTAB instituted inter partes review on the fourth patent-in-suit (i.e., the '121 Patent), and on October 30, 2017, the Corporation filed a motion to stay the litigation pending the inter partes reviews. On December 12, 2017, the Court granted the Corporation's motion to stay, staying the litigation pending resolution of the inter partes reviews, and dismissed without prejudice Stingray's motion for judgment on the pleadings. On March 26, 2018, the PTAB declined to institute an inter partes review for claims 10 and 15 of the '245 Patent. On April 26, 2018, the PTAB entered adverse judgment against Music Choice as to claims 1-9, 12-14, and 16-17 of the '245 Patent and terminated the proceeding. On June 19, 2018 and July 16, 2018, the PTAB held hearings for the instituted inter partes reviews. On September 20, 2018, the PTAB invalidated claims 1, 3 and 4 of the '025 Patent and stated that claim 8 was not shown to be unpatentable as anticipated by U.S. Patent Application Publication No. 2002/0078456 A1 (Hudson). On October 11, 2018, the PTAB invalidated claims 1-4 and 6-9 of the '045 Patent and stated that claims 5 and 10-20 were not shown to be unpatentable as obvious in view of Hudson and U.S. Patent No. 6,248,946 (Dwek). On October 17, 2018, the PTAB invalidated all of the claims of the '602 Patent. On October 24, 2018, the PTAB invalidated claims 1, 6, and 10-12 of the '121 Patent and stated the claim 14 was not shown to be unpatentable as anticipated by U.S. Patent No. 5,752,160. Since claim 14 of the '121 Patent is not asserted in the litigation, the '121 Patent is no longer at issue in the district court litigation. On November 21, 2018, Stingray filed a Notice of Appeal regarding the PTAB's decision that claim 8 of the '025 Patent was not shown to be unpatentable as anticipated by Hudson. On November 23, 2018, the parties filed a joint status report advising the district court as to the outcome of the proceedings and a joint motion proposing a docket control order. On November 26, 2018, the Court lifted the stay and entered an Amended Docket Control Order. On December 12, 2018, Stingray filed a Notice of Appeal regarding the PTAB's decision that claims 5 and 10-20 of the '045 Patent were not shown to be unpatentable as obvious in view of Hudson and Dwek. Briefing for the '025 Patent appeal was completed on June 25, 2019 and briefing for the '045 Patent appeal was completed on July 15, 2019. Supplemental fact and expert discovery in the district court litigation has closed and briefing for dispositive and *Daubert* motions has commenced. On June 25, 2019, the Court rescheduled trial for December 9, 2019.

Stingray v. Music Choice

SMU filed its Complaint on August 30, 2016, asserting claims of unfair competition under the Federal Lanham Act, defamation, trade libel, tortious interference, and common law unfair competition, stemming from false misrepresentations of fact made by Music Choice regarding the nature, characteristics and qualities of Stingray Music and its products and services, to SMU's existing and potential customers, with the goal of damaging SMU's relationships with those customers and its business generally. On October 17, 2016, Music Choice filed a Motion to Dismiss on the grounds that all of SMU's claims are time barred. In response, on November 3, 2016, SMU filed an Amended Complaint, after which (on December 7, 2016), Music Choice moved to dismiss only the state law claims. Music Choice also filed a motion to transfer the case to the Eastern District of Pennsylvania. On January 4, 2017, SMU opposed both motions. In addition, SMU filed a motion to consolidate the action with the Music Choice patent infringement action.

On March 16, 2017, the Court denied Music Choice's motion to change venue, and granted SMU's motion to consolidate, ordering that this action be consolidated for all pretrial issues with the Music Choice v. Stingray action. Music Choice's motion to dismiss the state law claims remains pending. On March 30, 2017, Music Choice answered SMU's complaint (except for the state law claims that remain subject to its pending motion to dismiss) and asserted a counterclaim against SMU and the Corporation. Music Choice's counterclaim alleges that the Stingray entities misused Music Choice confidential data in violation of various non-disclosure agreements (the "NDAs"). These non-disclosure agreements arose from discussions between the parties concerning a possible acquisition of Music Choice by the Corporation. The Corporation's entities answered the counterclaim on April 28, 2017, denying the allegations and asserting various affirmative defenses, including that Music Choice acted fraudulently and in bad faith with regard to the NDAs. Supplemental fact discovery and expert discovery have closed and briefing for dispositive and *Daubert* motions have commenced. On June 25, 2019, the Court rescheduled trial for December 9, 2019.

SOCAN and Re:Sound legal proceedings

From May 2, 2017 until May 10, 2017, the Corporation, together with its Canadian Broadcast Distribution Undertaking customers (together, the "Objectors"), presented an affirmative case before the Copyright Board of Canada to seek a reduction in the prescribed rates and terms for the Pay Audio Services Tariff for the 2007-2016 period. SOCAN and Re:Sound (together, the "Collectives") opposed that case, but in the opinion of the Objectors failed to offer compelling alternatives other than a request to maintain the status quo. While the Objectors and the Collectives await the final determination of the Board on the proper quantum of the Tariff, in early 2018 the Board released a tentative ruling proposing that allocation of affiliation payments across the suite of Stingray services is reasonable and appropriate and asking the parties to propose favoured approaches to allocation. The parties have responded to the Board's request, with the Objectors proposing an allocation based on a "cost approach", as supported by independent, expert advice. The Copyright Board of Canada continues its consideration of the matter, and the Corporation anticipates a decision in about 6 to 15 months, based on past experience and the complexity of this proceeding.

Contractual Obligations

The Corporation is committed under the terms of contractual obligations with various expiration dates, primarily the rental of office space, financial obligations under its credit agreement, broadcast licence and commitments for copyright royalties. There have been no material changes to these obligations since March 31, 2019.

Transactions Between Related Parties

The key management personnel of the Corporation are the Chief Executive Officer, Chief Financial Officer and certain other key employees of the Corporation. There have been no material changes to the nature or importance of the transactions between related parties since March 31, 2019.

Off-Balance Sheet Arrangements

Upon adoption of IFRS 16 on April 1, 2019, commitments under operating leases previously disclosed in note 25 of the audited consolidated financial statements of the Corporation for the year ended March 31, 2019 are now largely recorded on balance sheet as right-of-use assets and lease liabilities. As of June 30, 2019, the balance of lease liabilities for the related operating leases was \$33.9 million.

The Corporation therefore has no off-balance sheet arrangements, except for the operating leases with terms of twelve months or less, leases of low-value assets or leases that are not in scope of IFRS 16, that have, or are reasonably likely to have, a current or future material effect on its consolidated financial position, financial performance, liquidity, capital expenditures or capital resources.

Disclosure of Outstanding Share Data

Issued and outstanding shares and outstanding stock options consisted of:

	August 5, 2019	June 30, 2019
<i>Issued and outstanding shares:</i>		
Subordinate voting shares	57,858,220	57,858,620
Subordinate voting shares held in trust through employee share purchase plan	(31,024)	(26,705)
Variable subordinate voting shares	626,229	625,829
Multiple voting shares	17,941,498	17,941,498
	76,394,923	76,399,242
<i>Outstanding stock options:</i>		
Stock options	2,584,890	2,584,890

The Corporation has a stock option plan to attract and retain employees, directors, officers and consultants. The plan provides for the granting of options to purchase subordinate voting shares. Under this plan, 10% of all multiple voting shares, subordinate voting shares and variable subordinate voting shares issued and outstanding on a non-diluted basis is reserve for issuance. In Q1 2020, 175,000 options were exercised, 16,584 options were forfeited, and 672,374 options were granted to eligible employees, subject to service vesting periods of 4 years.

Financial Risk Factors

The Corporation is exposed to a variety of financial risks: credit risk, liquidity risk and market risk (including currency risk and interest risk). The interim consolidated financial statements and management discussion and analysis do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the annual financial statements as at March 31, 2019. The Corporation is not aware of any significant changes to the Corporation's risk factors from those disclosed at that time.

Risk Factors

For a detailed description of risk factors associated with the Corporation, please refer to the "Risk Factors" section of the Corporation's AIF dated June 27, 2019. The Corporation is not aware of any significant changes to the Corporation's risk factors from those disclosed at that time.

New standard adopted by the Corporation

IFRS 16 - Leases

Effective April 1, 2019, the Corporation adopted IFRS 16 - Leases, which supersedes IAS 17 - Leases and its related interpretations. IFRS 16 introduces a single lease accounting model under which most of the lease-related assets and liabilities are recognized in the statement of financial position. The Corporation has recognized an asset related to the right of use and a liability at the present value of future lease payments. Depreciation of the right-of-use asset and interest expense on the lease obligation have replaced rent expense related to operating leases. This applies to the lease contracts that convey the right to control the use of an identified asset in exchange for consideration, unless the Corporation elects to exclude short term leases (lease term of twelve months or less) and leases of low-value assets. The standard also specifies how to recognize, measure, present, and disclose leases.

Under IAS 17- Leases and IFRIC 4 - Determining whether an arrangement contains a lease, the Corporation's accounting policy is to record all leases, as either operating or finance, based on the substance of the transaction at the inception of the lease. The Corporation classified all leases as operating leases prior to April 1, 2019. Payments made under operating leases (net of any incentives received from the lessor) are charged to net earnings on a straight-line basis over the lease term.

The Corporation adopted IFRS 16 using the modified retrospective method with the date of initial application of April 1, 2019. Under this method, the standard is applied retrospectively and the comparatives figures from Fiscal 2019 are not restated. Upon transition, for leases classified as operating leases under IAS 17, lease liabilities have been measured at the present value of the remaining lease payments, discounted using the Corporation's incremental borrowing rate as at April 1, 2019. Right-of-use assets have been measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

At transition, the Corporation has elected to apply the practical expedient to grandfather the assessment of which transactions are leases on the date of initial application, as previously assessed under IAS 17 and IFRIC 4. The Corporation applied the

definition of a lease under IFRS 16 to contracts entered into or modified on or after April 1, 2019. The Corporation has also elected to apply the following practical expedients to leases previously classified as operating leases under IAS17:

- Application of a single discount rate to a portfolio of leases with similar characteristics;
- Exclusion of initial direct costs from measuring the right-of-use asset as at April 1, 2019;
- Use of hindsight in determining the lease term where the contract contains purchase, extension, or termination options; and
- Exclusion of leases for which the lease term ends within twelve months of the date of the initial application.

The following describes the Corporation's accounting policy under IFRS 16 - Leases:

At inception of a contract, the Corporation assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Corporation allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties for which it is a lessee, the Corporation has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component. The right-of-use asset and a lease liability are recognized at the lease commencement date.

Right-of-use asset

The right-of-use asset is measured at cost. The cost is based on the initial amount of the lease liability plus initial direct costs incurred, less any lease incentives received, if any.

The cost of right-of-use asset is periodically reduced by depreciation expenses and impairment losses, if any, and adjusted for certain remeasurements of the lease liability. Right-of-use asset is amortized to reflect the expected pattern of consumption of the future economic benefits which is based on the lesser of the useful life of the asset or the lease term using the straight-line method. The lease term includes the renewal option only if it is reasonably certain to be exercised. The lease terms range from 1 to 19 years for buildings and towers, from 6 to 57 years for lands and from 1 to 5 years for vehicles.

The Corporation elected not to recognize a right-of-use asset and liability for the leases where the total lease term is less than or equal to twelve months and for the leases of low valued assets in nature; such as but not limited to, office equipment. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Lease liabilities

At the commencement date of the lease, the Corporation recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Corporation and payments of penalties for terminating a lease, if the lease term reflects the Corporation exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period in which the event or condition that triggered the payment has occurred.

In calculating the present value of lease payments, the Corporation uses the incremental borrowing rate as at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of the lease liability is increased to reflect the accretion of interest and reduced to reflect the lease payments made. In addition, the carrying amount of the lease liability is remeasured if there has been a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Significant judgement in determining the lease term of contracts with renewal options

The Corporation determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. After the commencement date, the Corporation reassesses the lease term for whether significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy) has occurred.

Impact on transition to IFRS 16 - Leases

As at April 1, 2019, the Corporation recorded lease liabilities of \$34.0 million and right-of-use assets of \$33.4 million, net of the deferred lease inducements and lease payments made on or before the commencement of the lease, with no net impact on deficit.

When measuring lease liabilities for those leases previously classified as operating leases under IAS 17, the Corporation has discounted future lease payments using its incremental borrowing rate as at April 1, 2019. The weighted-average rate applied is 5.03%.

The following table presents the reconciliation of the Corporation's commitments as of March 31, 2019 to the lease liabilities recognized on initial application of IFRS 16 as at April 1, 2019:

(in thousands of Canadian dollars)

Commitments as at March 31, 2019	39,162
Non-lease commitments	(17,248)
Renewal options reasonably certain to be exercised	23,613
Variable commitments excluded from the lease liabilities	(1,866)
Commitments relating to short-term and low-value assets	(767)
Discounting impact	(8,846)
Lease liabilities as at April 1, 2019	34,048

The following table presents the right-of-use assets on leases of the Corporation as of June 30, 2019:

	3 months Q1 2019
(in thousands of Canadian dollars)	
Opening amount as at April 1, 2019	33,411
Additions	934
Depreciation of right-of-use assets	(1,371)
Foreign exchange differences	(35)
Right-of-use asset on leases net book as at June 30, 2019	32,939

The following table presents the lease liabilities of the Corporation as of June 30, 2019:

	3 months Q1 2019
(in thousands of Canadian dollars)	
Opening amount as at April 1, 2019	34,048
Additions	934
Payment of lease liabilities	(1,512)
Interest expense on lease liabilities	417
Foreign exchange differences	(35)
Lease liabilities as at June 30, 2019	33,852

The lease liabilities include undiscounted amount of \$23.6 million related to extension option that the Corporation is reasonably certain to exercise.

The following table presents the maturity analysis of contractual undiscounted cashflows related to the lease liabilities of the Corporation as of June 30, 2019:

	June 30, 2019
(in thousands of Canadian dollars)	
Less than one year	6,689
One to five years	18,884
More than five years	17,288
Total undiscounted lease liabilities as at June 30, 2019	42,861
Lease liabilities included in the Interim Consolidated Statements of Financial Position as at June 30, 2019	33,852
Current portion	5,183
Non-current portion	28,669

Change in accounting policy

During the period, the Corporation changed its accounting policy with respect to the disclosure of interest paid in the Consolidated Statements of Cash Flows. The Corporation now disclose interest paid in financing activities. Prior to this change of policy, the Corporation disclosed interest paid in operating activities.

The Corporation believes the new policy is preferable as it more closely aligns the interest payments with the use of the proceeds from financing, such as business acquisitions. Also, interest payments increased as a result of the NCC acquisition financing and the adoption of IFRS 16, and both items are not related to operating activities.

This change did not result in a material impact on the current period or any periods included within these consolidated financial statements and only affected the presentation of interest paid in the Consolidated Statements of Cash Flows.

Future Accounting Changes

For information on future accounting changes, please refer to the unaudited interim consolidated financial statements.

Evaluation of Disclosure Controls and Procedures

Internal control over financial reporting ("ICFR") is a process designed to provide reasonable, but not absolute, assurance regarding the reliability of financial reporting and of the preparation of financial statements for external purposes in accordance with IFRS. The President and Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO"), together with Management, are responsible for establishing and maintaining adequate disclosure controls and procedures ("DC&P") and ICFR, as defined in National Instrument 52-109. The Corporation's internal control framework is based on the criteria published in the updated version released in May 2013 of the report Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("2013 COSO Framework").

The Corporation's management, under the supervision of the CEO and CFO, designed ICFR to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS and based on 2013 COSO Framework. The DC&P have been designed to provide reasonable assurance that material information relating to the Corporation is made known to the CEO and CFO by others, and that information required to be disclosed by the Corporation in its annual filings, interim filings or other reports filed or submitted by the Corporation under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation.

During the first quarter ended June 30, 2019, there have been no changes in the Corporation's internal control over financial reporting that have materially affected, or are likely to materially affect, the Corporation's ICFR.

Management's assessment of and conclusion on the design and the effectiveness of the Corporation's ICFR as at August 6, 2019, did not include the controls or procedures of the operations of Newfoundland Capital Corporation Limited, DJ Matic and Novramedia. The Corporation has accordingly availed itself of provision 3.3(1)(b) of Regulation 52-109 which permits exclusion of these acquisitions in the design and operating effectiveness assessment of its ICFR for a maximum period of 365 days from the date of acquisition.

Subsequent Events

Dividend

On August 6, 2019, the Corporation declared a dividend of \$0.07 per subordinate voting share, variable subordinate voting share and multiple voting share. The dividend will be payable on or around September 13, 2019 to shareholders on record as of August 31, 2019.

Credit facility extension and amendment

On July 9, 2019, the Corporation extended the maturity of its revolving facility by one year, with a new maturity date of October 25, 2022. The Corporation reduced the authorized amount under the revolving facility by \$70.0 million bringing it down to \$230.0 million. The interest pricing grid was also reviewed for both the revolving facility and the term facility, which will reduce future interest expense.

Additional Information

Additional information about the Corporation is available on our website at www.stingray.com and on the SEDAR website at www.sedar.com.

Notes to Interim Consolidated Financial Statements

Three-month periods ended June 30, 2019 and 2018

(In thousands of Canadian dollars, unless otherwise stated)

(Unaudited)

1. BUSINESS DESCRIPTION AND BASIS OF CONSOLIDATION

Stingray Group Inc. (the "Corporation") is incorporated under the *Canada Business Corporations Act*. The Corporation is domiciled in Canada and its registered office is located at 730 Wellington, Montréal, Québec, H3C 1T4. The Corporation is a provider of multi-platform music services. It broadcasts high quality music and video content on a number of platforms including radio stations, premium television channels, digital TV, satellite TV, IPTV, the Internet, mobile devices and game consoles. A portion of the Corporation's revenue is derived from the sale of advertising airtime, which is subject to seasonal fluctuations. The fourth quarter of the year (January to March) is generally a period of lower retail spending. As a result, revenue and profit are generally lower than the other quarters.

These interim consolidated financial statements include the accounts of the Corporation and its wholly-owned subsidiaries, Stingray Music USA Inc., Stingray Music Rights Management LLC, 2144286 Ontario Inc., 4445694 Canada Inc., Pay Audio Services Limited Partnership, Music Choice Europe Limited, Stingray Digital International Ltd., Stingray Europe B.V., Transmedia Communications SA, Think inside the box LLC (Nature Vision TV), SBA Music PTY Ltd., Stingray Music, S.A. de C.V., Novramedia Inc., DJ Matic NV and Stingray Radio Inc. (formerly Newfoundland Capital Corporation Limited) and all these entities' wholly-owned subsidiaries.

The auditors of the Corporation have not performed a review of the interim financial report for the three-month period ended June 30, 2019.

2. SIGNIFICANT CHANGES AND HIGHLIGHTS

The interim consolidated financial position and performance of the Corporation was particularly affected by the following events and transactions during the three-month period ended June 30, 2019:

- Effective April 1, 2019, the Corporation adopted IFRS 16 - Leases, which supersedes IAS 17 - Leases and its related interpretations. As at April 1, 2019, the Corporation recorded lease liabilities of \$34,048 and right-of-use assets of \$33,411, net of the deferred lease inducements and lease payments made on or before the commencement of the lease, with no net impact on deficit (note 16).

3. SUBSEQUENT EVENTS

Credit facility extension and amendment

On July 9, 2019, the Corporation extended the maturity of its revolving facility by one year, with a new maturity date of October 25, 2022. The Corporation reduced the authorized amount under the revolving facility by \$70,000 bringing it down to \$230,000. The interest pricing grid was also reviewed for both the revolving facility and the term facility, which will reduce future interest expense.

Dividend

On August 6, 2019, the Corporation declared a dividend of \$0.07 per subordinate voting share, variable subordinate voting share and multiple voting share that will be payable on or around September 13, 2019 to shareholders on record as of August 31, 2019.

Notes to Interim Consolidated Financial Statements

Newfoundland Capital Corporation

On October 26, 2018, the Corporation acquired all of the issued and outstanding shares for total consideration of \$484,252, of which \$453,694 was paid in cash and the remaining \$30,558 through the issuance of 3,887,826 subordinate voting shares of the Corporation. NCC is a radio broadcaster who operates radio stations across Canada. As a result of the acquisition, goodwill of \$218,304 was recognized related to the operating synergies expected to be achieved from integrating the acquired business into the Corporation's existing business. The goodwill will not be deductible for tax purposes.

	As of March 31, 2019	Adjustments	Final

DJ-Matic

On October 12, 2018, the Corporation purchased all of the outstanding shares of DJ-Matic, a European provider of in-store media solutions for businesses for total consideration of EUR\$10,163 (\$15,775). As a result of the acquisition, goodwill of \$12,344 was recognized related to the operating synergies expected to be achieved from integrating the acquired business into the Corporation's existing business. The goodwill will not be deductible for tax purposes.

The fair value of acquired trade receivables was \$1,088 which represented the gross contractual amount. The contingent consideration arrangement requires the Corporation to pay, in cash, to the former owners, an amount not exceeding EUR\$7,473 (\$11,118) over the next three years ending in October 2021, based on an adjusted EBITDA ratio. The fair value of the contingent consideration was determined using an income approach based on the estimated amount and timing of projected cash flows.

	As of March 31, 2019	Adjustments	Preliminary
Assets acquired:			
Cash and cash equivalents	\$ 543	\$ —	\$ 543
Trade and other receivables	1,088	—	1,088
Inventories	312	—	312
Property and equipment	589	—	589
Intangible assets	9,951	(716)	9,235
Goodwill	12,339	5	12,344
	24,822	(711)	24,111
Liabilities assumed:			
Accounts payable and accrued liabilities	5,821	(416)	5,405
Deferred revenues	652	—	652
Other liabilities	—	416	416
Income taxes payable	30	—	30
Deferred tax liabilities	2,544	(711)	1,833
	9,047	(711)	8,336
Net assets acquired at fair value	\$ 15,775	\$ —	\$ 15,775
Consideration given:			
Cash	13,692	—	13,692
Contingent consideration	2,083	—	2,083
	\$ 15,775	\$ —	\$ 15,775

As of the reporting date, the Corporation has not completed the purchase price allocation over the identifiable net assets and goodwill as information to confirm the fair value of certain assets and liabilities remains to be obtained.

(In thousands of Canadian dollars, unless otherwise stated)

(Unaudited)

Novramedia

On August 1, 2018, the Corporation purchased all of the outstanding shares of Novramedia Inc. ("Novramedia") for total consideration of \$7,755. Novramedia is a Canadian provider of digital media solution. As a result of the acquisition, goodwill of \$3,431 was recognized related to the operating synergies expected to be achieved from integrating the acquired business into the Corporation's existing business. The goodwill will not be deductible for tax purposes.

The fair value of acquired trade receivables was \$754 which represented the gross contractual amount. The contingent consideration arrangement requires the Corporation to pay, in cash, to the former owners, an amount not exceeding \$2,500 over the next 12 months if certain revenues-based targets are met. The fair value of the contingent consideration was determined using an income approach based on the estimated amount and timing of projected cash flows.

	As of March 31, 2019	Adjustments	Final
Assets acquired:			
Cash and cash equivalents	\$ 4	\$ —	\$ 4

5. SEGMENT INFORMATION

OPERATING SEGMENTS

The Corporation's operating segments are aggregated in two segments: *Broadcasting and commercial music* and *Radio*. The operating segments reflect how the Corporation manages its operations, resources and assets and how it measures its performance. Both operating segment's financial results are reviewed by the Chief operating decision maker ("CDOM") to make decisions about resources to be allocated to the segment and assess its performance based on adjusted EBITDA, and for which distinct financial information is available.

Adjusted EBITDA excludes from income before income taxes the following expenses: share-based compensation, PSU and DSU expenses, CRTC tangible benefits, depreciation, amortization and write-off, net finance expense (income), change in fair value of investments and acquisition, legal, restructuring and other expenses. There are no inter-segment revenues for the periods.

The Broadcasting and commercial music segment specializes in the broadcast of music and videos on multiple platforms and digital signage experiences and generates revenues from subscriptions or contracts.

The Radio segment operates several radio stations across Canada and generates revenues from advertising.

Corporate and eliminations is a non-operating segment comprising corporate and administrative functions that provide support and governance to the Corporation's operating business units.

Notes to Interim Consolidated Financial Statements

Three-month periods ended June 30, 2019 and 2018

(In thousands of Canadian dollars, unless otherwise stated)

(Unaudited)

The following tables present financial information by segment for the three-month periods ended June 30, 2019 and 2018.

	Broadcasting and commercial music		Radio		Corporate and eliminations		Consolidated

10. CREDIT FACILITY

The table below is a summary of the Credit facility at June 30, 2019:

	Total available		Drawn	Letters of credit	Net available			
Committed credit facilities								
Revolving facility	\$	300,000	\$	163,698	\$	1,050	\$	135,252
Term facility		150,000		142,500		—		—
Total committed credit facilities	\$	450,000	\$	306,198	\$	1,050	\$	135,252
Less: unamortized deferred financing fees			(2,039)					
Balance, end of period			304,159					
Current portion			\$		15,000			
Non-current portion			\$		289,159			

The Corporation is required to make consecutive quarterly capital repayments of 2.50% of the amount of its term facility. Additionally, the Corporation must make an annual capital repayment, equivalent to 50% of the excess cash flow, defined in the credit facility agreement, if a certain financial covenant target is not met. The remaining capital balance will be payable on maturity date. Minimum capital repayments to be made by the Corporation on the term facility in the forthcoming years are as follows:

	Capital repayments
2020	\$ 11,250
2021	15,000
2022	116,250
	\$ 142,500

On July 9, 2019, the Corporation extended the maturity of its revolving facility by one year, with a new maturity date of October 25, 2022. The Corporation reduced the authorized amount under the revolving facility by \$70,000 bringing it down to \$230,000. The interest pricing grid was also reviewed for both the revolving facility and the term facility, which will reduce future interest expense.

11. OTHER LIABILITIES

	June 30, 2019	March 31, 2019
CRTC tangible benefits	\$ 30,704	\$ 31,797
Contingent consideration	12,403	12,430

Conversion of subscription receipts issued through a private placement	3,846,100		39,999
Equity element of NCC purchase price	3,887,826		30,558
Private placement	2,429,544		25,000
Exercise of stock options	147,500		618
Purchased and held in trust through employee share purchase plan	(7,033)		(28)
Share issuance costs, net of income taxes of \$1,780	—		(4,899)
As at March 31, 2019	58,296,405	\$	319,488
Multiple voting shares			
As at March 31, 2018	16,294,285		1,116
Conversion of subscription receipts issued upon exercise of subscription rights	1,452,850		15,110
Issuance	194,363		2,000
As at March 31, 2019	17,941,498		18,226
	76,237,903	\$	337,714
Three-month period ended June 30, 2019			
Subordinate voting shares and variable subordinate voting shares			
As at March 31, 2019	58,296,405	\$	319,488
Exercise of stock options	175,000		681
Purchased and held in trust through employee share purchase plan	(13,661)		(91)
As at June 30, 2019	58,457,744	\$	320,078
Multiple voting shares			
As at March 31, 2019 and June 30, 2019	17,941,498		18,226
	76,399,242	\$	338,304

Transactions for the period ended June 30, 2019

During the period, 175,000 stock options were exercised and consequently, the Corporation issued 175,000 subordinate voting shares. The proceeds amounted to \$395. An amount of \$286 of contributed surplus related to those stock options was transferred to the subordinate voting shares' account balance.

On June 15, 2019, the Corporation paid a dividend of \$4,956. The dividend was declared on March 29, 2019 and therefore accrued in the consolidated statement of financial position as at March 31, 2019.

Other liabilities	(1,349)	(824)
	<u>\$ (2,127)</u>	<u>\$ (1,580)</u>

14. FINANCIAL INSTRUMENTS:

Financial risk factors:

The Corporation is exposed to a variety of financial risks: credit risk, liquidity risk and market risk (including currency risk and interest risk). The interim consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the annual financial statements as at March 31, 2019. The Corporation is not aware of any significant changes to the Corporation's risk factors from those disclosed at that time.

Fair values

The Corporation has determined that the carrying amount of cash and cash equivalents, trade and other receivables, accounts payable and accrued liabilities and current other liabilities excluding the contingent consideration is a reasonable approximation of their fair value due to the short-term maturity of those instruments. As such, information on their fair values is not presented below. The fair value of the credit facility approximates its carrying value as it bears interest at prime or banker's acceptance rates plus a credit spread, which approximate current rates that could be obtained for debts with similar terms and credit risk. The fair value of the subordinated debt approximates its carrying value as its interest rate approximates current rates that could be obtained for debts with similar terms and credit risk. The carrying amount of CRTC tangible benefits and balance payable on business acquisitions is a reasonable approximation of their fair value as they are discounted using the effective interest rate, which approximates current rates that could be obtained with similar terms and credit risk.

Notes to Interim Consolidated Financial Statements

Three-month periods ended June 30, 2019 and 2018

(In thousands of Canadian dollars, unless otherwise stated)

Change in fair value		333		(27)
Balance as at June 30, 2019	\$	17,331	\$	12,403

There were no changes in the valuation techniques for the contingent consideration and investments during the three-month periods ended June 30, 2019 and 2018.

Investments

The Corporation has two equity instruments in private entities:

AppDirect

The fair value of the equity instrument in a private entity, AppDirect, was estimated using the market approach.

For the three-month periods ended June 30, 2019 and 2018, the fair value has been measured by using the equity price from the latest external significant equity financing transaction, minus a liquidity discount of 25%. The liquidity discount was used to reflect the marketability of the asset. In measuring fair value, management used the best information available in the circumstances and also an approach that it believes market participants would use. There was no change in the fair value of this instrument during the three-month period as there were no external equity financing transactions or no other indicators of significant changes that could affect the fair value of the investment.

The equity instrument in a private entity is classified as a financial asset at fair value through profit and loss.

The fair value of the investment as at June 30, 2019 was \$15,765.

Nextologies

The fair value of the equity instrument in a private entity, Nextologies, was estimated using a market comparison technique. The valuation model is based on market multiples derived from quoted price of companies comparable to the investment and the expected EBITDA on the investment.

The equity instrument in a private entity is classified as a financial asset at fair value through profit and loss.

The fair value of the investment as at June 30, 2019 was \$900.

Contingent consideration

The contingent consideration related to business combinations is payable based on the achievement of targets for growth in revenues for a period from the date of the acquisition and upon renewal of client contracts. The fair value measurement of the contingent consideration is determined using unobservable (Level 3) inputs. These inputs include (i) the estimated amount and timing of projected cash flows; and (ii) the risk-adjusted discount rate used to present value the cash flows, which is based on the risk associated with the revenue targets being met. The contingent consideration is classified as a financial liability and is included in other liabilities (Note 11). The change in fair value is recognized in net finance expense (income) (Note 7).

15. BASIS OF PREPARATION:

a) Statement of compliance:

These interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a basis consistent with those accounting policies followed by the Corporation in the most recent audited consolidated annual financial statements. These interim consolidated financial statements have been prepared on a form in accordance with IAS 34 "Interim Financial Reporting". Accordingly, certain information, in particular the accompanying notes, normally included in the consolidated annual financial statements prepared in accordance with IFRS, has been omitted or condensed. Income taxes in the interim periods are accrued using the tax rate that would be applicable to expected total annual profit or loss. These interim consolidated financial statements should be read in conjunction with the consolidated annual financial statements and the note thereto for the year ended March 31, 2019.

The interim consolidated financial statements were authorized for issue by the Board of Directors on August 6, 2019.

b) Use of estimates and judgments:

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these interim consolidated financial statements, the significant judgments made by management in applying the Corporation's accounting policies and the key sources of information were the same as the ones applied to the audited consolidated financial statements for the year ended March 31, 2019.

c) Functional and presentation currency:

These interim consolidated financial statements are presented in Canadian dollars, which is the Corporation's functional currency. All financial information presented in Canadian dollars has been rounded to the nearest thousand.

16. NEW AND AMENDED STANDARD ADOPTED BY THE CORPORATION:

ADOPTION OF IFRS 16 - LEASES

Effective April 1, 2019, the Corporation adopted IFRS 16 - Leases, which supersedes IAS 17 - Leases and its related interpretations. IFRS 16 introduces a single lease accounting model under which most of the lease-related assets and liabilities are recognized in the statement of financial position. The Corporation has recognized an asset related to the right of use and a liability at the present value of future lease payments. Depreciation of the right-of-use asset and interest expense on the lease obligation have replaced rent expense related to operating leases. This applies to the lease contracts that convey the right to control the use of an identified asset in exchange for consideration, unless the Corporation elects to exclude short term leases (lease term of twelve months or less) and leases of low-value assets. The standard also specifies how to recognize, measure, present, and disclose leases.

Under IAS 17- Leases and IFRIC 4 - Determining whether an arrangement contains a lease, the Corporation's accounting policy is to record all leases, as either operating or finance, based on the substance of the transaction at the inception of the lease. The Corporation classified all leases as operating leases prior to April 1, 2019. Payments made under operating leases (net of any incentives received from the lessor) are charged to net earnings on a straight-line basis over the lease term.

The Corporation adopted IFRS 16 using the modified retrospective method with the date of initial application of April 1, 2019. Under this method, the standard is applied retrospectively and the comparatives figures from Fiscal 2019 are not restated. Upon transition, for leases classified as operating leases under IAS 17, lease liabilities have been measured at the present value of the remaining lease payments, discounted using the Corporation's incremental borrowing rate as at April 1, 2019. Right-of-use assets have been measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

At transition, the Corporation has elected to apply the practical expedient to grandfather the assessment of which transactions are leases on the date of initial application, as previously assessed under IAS 17 and IFRIC 4. The Corporation applied the definition of a lease under IFRS 16 to contracts entered into or modified on or after April 1, 2019. The Corporation has also elected to apply the following practical expedients to leases previously classified as operating leases under IAS17:

- Application of a single discount rate to a portfolio of leases with similar characteristics;
- Exclusion of initial direct costs from measuring the right-of-use asset as at April 1, 2019;
- Use of hindsight in determining the lease term where the contract contains purchase, extension, or termination options; and
- Exclusion of leases for which the lease term ends within twelve months of the date of the initial application.

The following describes the Corporation's accounting policy under IFRS 16 - Leases:

At inception of a contract, the Corporation assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Corporation allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties for which it is a lessee, the Corporation has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component. The right-of-use asset and a lease liability are recognized at the lease commencement date.

(Unaudited)

Right-of-use asset

The right-of-use asset is measured at cost. The cost is based on the initial amount of the lease liability plus initial direct costs incurred, less any lease incentives received, if any.

The cost of right-of-use asset is periodically reduced by depreciation expenses and impairment losses, if any, and adjusted for certain remeasurements of the lease liability. Right-of-use asset is amortized to reflect the expected pattern of consumption of the future economic benefits which is based on the lesser of the useful life of the asset or the lease term using the straight-line method. The lease term includes the renewal option only if it is reasonably certain to be exercised. The lease terms range from 1 to 19 years for buildings and towers, from 6 to 57 years for lands and from 1 to 5 years for vehicles.

The Corporation elected not to recognize a right-of-use asset and liability for the leases where the total lease term is less than or equal to twelve months and for the leases of low valued assets in nature; such as but not limited to, office equipment. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Lease liabilities

At the commencement date of the lease, the Corporation recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Corporation and payments of penalties for terminating a lease, if the lease term reflects the Corporation exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period in which the event or condition that triggered the payment has occurred.

In calculating the present value of lease payments, the Corporation uses the incremental borrowing rate as at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of the lease liability is increased to reflect the accretion of interest and reduced to reflect the lease payments made. In addition, the carrying amount of the lease liability is remeasured if there has been a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Significant judgement in determining the lease term of contracts with renewal options

The Corporation determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. After the commencement date, the Corporation reassesses the lease term for whether significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy) has occurred.

IMPACT ON TRANSITION TO IFRS 16 - LEASES

As at April 1, 2019, the Corporation recorded lease liabilities of \$34,048 and right-of-use assets of \$33,411, net of the deferred lease inducements and lease payments made on or before the commencement of the lease, with no net impact on deficit.

When measuring lease liabilities for those leases previously classified as operating leases under IAS 17, the Corporation has discounted future lease payments using its incremental borrowing rate as at April 1, 2019. The weighted-average rate applied is 5.03%.

(In thousands of Canadian dollars, unless otherwise stated)

(Unaudited)

The following table presents the reconciliation of the Corporation's commitments as of March 31, 2019 to the lease liabilities recognized on initial application of IFRS 16 as at April 1, 2019:

Commitments as at March 31, 2019	39,162
Non-lease commitments	(17,248)
Renewal options reasonably certain to be exercised	23,613
Variable commitments excluded from the lease liabilities	(1,866)
Commitments relating to short-term and low-value assets	(767)
Discounting impact	(8,846)
Lease liabilities as at April 1, 2019	34,048

The following table presents the right-of-use assets on leases of the Corporation as of June 30, 2019:

Opening amount as at April 1, 2019	33,411
Additions	934
Depreciation of right-of-use assets	(1,371)
Foreign exchange differences	(35)
Right-of-use asset on leases net book as at June 30, 2019	32,939

The following table presents the lease liabilities of the Corporation as of June 30, 2019:

Opening amount as at April 1, 2019	34,048
Additions	934
Payment of lease liabilities	(1,512)
Interest expense on lease liabilities	417
Foreign exchange differences	(35)
Lease liabilities as at June 30, 2019	33,852

The lease liabilities include undiscounted amount of \$23,613 related to extension option that the Corporation is reasonably certain to exercise.

The following table presents the maturity analysis of contractual undiscounted cashflows related to the lease liabilities of the Corporation as of June 30, 2019:

	June 30, 2019
Less than one year	6,689
One to five years	18,884
More than five years	17,288
Total undiscounted lease liabilities as at June 30, 2019	42,861
Lease liabilities included in the Interim Consolidated Statements of Financial Position as at June 30, 2019	33,852
Current portion	5,183
Non-current portion	28,669

17. CHANGE IN ACCOUNTING POLICY:

During the period, the Corporation changed its accounting policy with respect to the disclosure of interest paid in the Consolidated Statements of Cash Flows. The Corporation now disclose interest paid in financing activities. Prior to this change of policy, the Corporation disclosed interest paid in operating activities.

The Corporation believes the new policy is preferable as it more closely aligns the interest payments with the use of the proceeds from financing, such as business acquisitions. Also, interest payments increased as a result of the NCC acquisition financing and the adoption of IFRS 16, and both items are not related to operating activities.

This change did not result in a material impact on the current period or any periods included within these consolidated financial statements and only affected the presentation of interest paid in the Consolidated Statements of Cash Flows.
